Karma Acoustic OverlayPlus

Benefits of Karma Acoustic Overlay / OverlayPlus

- Non-load bearing partitions can be built off the floating floor
- Quick and easy to install, offering savings in labour
- Minimal height increase offering savings in brickwork and foundations
- Tried and tested system
- Versatile – can be finished with all types of floor finish
- Cost-effective solution

Typical Applications

- New build apartments, hotels, student accommodation and houses with timber joist floors (Pre Completion Testing)
- Refurbishment projects where height restrictions exist but reliable performance is still required
